

Bureau of Environmental Compliance 59-17 Junction Boulevard, 9th Floor, Flushing, New York 11373 Records Control (718) 595-3855

#### **Boiler Work Permit Application**

- Login to DEP online CATS: www.nyc.gov/dep/cats
- After Login, select the right button "Boiler Work Permits, Inspection Requests (CO), and Amendments and Affidavits".
- You will be directed to the "My Requests" menu tab

#### Work permit for New Boiler/Burner

- Click on the dropdown menu for "Select Request Type" as 'Work Permit Stationary' or 'Work Permit Mobile 'or 'Work Permit Emergency' as required.
- Click the "Create" button.
- Enter the Application ID (e.g., CA001170 or CB000112 without the ending Alphabet) if you are applying for a Work Permit from an existing Emergency Boiler Work Permit and click the "Continue button"
- To create a new Stationary Work Permit application, click "Create".
- Complete the information in each field. Mandatory fields on the request form are marked with an asterisk. (i.e., Owner's Email Address)
- Review all the information
- Under "Fee Information": Select "Yes" or "No" for both "Is it a government owned property?" and "Fee Waiver" status.
  - If you've select "Yes", select the government agency and provide proof. Upload document(s) from the "My Requests" tab.
- Once completed, *click both* the "Certification Checkbox" and the "Save" or "Save and Submit" button.

#### To attach documents (PDF only), accessible from the "My Requests" menu:

- Locate the application number for which the system will have generated a request ID. Click the PDF icon to attach a file.
- Once the documents are attached, click the 'My Request Page' tab on top left corner.
- The following documents are required:
  - Drawings/Plans (in PDF format) with a Plot Plan, Boiler room plan and Boiler plan
  - Equipment compliance certification (if applicable)
  - Draft calculations (for new boilers, new induced draft fan or new chimney)
  - Heat load calculations for a new building
  - DOF document (only for Tax Exempt selection)
  - Workman's Compensation Insurance document (if available)

NOTE: Please be advised to send two copies of the drawing my mail to DEP along with system generated form signed and sealed.

#### Submit Application and Payment, accessible from the "My Requests" menu:

- Click the **"Submit"** icon (last icon in the list with a green forward arrow).
- Proceed with processing the payment. Detailed steps for payment are provided in the CATS Payment document
- The applicant & owner will receive an automated email upon successful submission.

For assistance, please call on 718-595-3855 or email us at Catsfeedback@dep.nyc.gov

#### THE CITY OF NEW YORK DEPARTMENT OF ENVIRONMENTAL PROTECTION

Bureau of Environmental Compliance 59-17 Junction Boulevard, 9<sup>th</sup> Floor, Flushing, New York 11373 Records Control (718) 595–3855

For stationary/mobile/emergency boilers- Heat Input of 4.2 Million Btu/hr or greater

#### Stationary/Mobile boilers - (PE/RA can file) Information and Documents needed:

- APC 5.0 Application System will generate
- Drawings/Plans (must be <u>legible</u> and formatted to print on 8½" X 11" or 11"x17")
  - Plot plan Cross streets, Compass, Location of boiler room, Block & Lot
  - Boiler room plan –Location of all components, Air Intake specifications
  - Boiler plan All dimensions, Burner limitations, Heat release
- Compliance Certification Forms for boiler, burner and/or control are required for equipment <u>not</u> on the DEP accepted list.
  - To check if boiler, burner and controls are on the DEP accepted listed: https://a826-web01.nyc.gov/DEP.AcceptedEquipment/
- Draft calculations are required for new boiler, induced draft fan, or chimney.
  - ASHRAE Program generated calculations (include summary sheet and detail output printout) (Version 2009 or later); or
  - NYC DEP Stack Adequacy Forms
- Heat load calculations required for new buildings and replacement boilers greater than 20% of the existing boiler on record
- All drawings and documents must be uploaded as PDFs (file name should not exceed 40 characters including spaces)

#### Emergency Work Permit - (LOBI/LMP or PE/RA can file)

- Required Information:
  - Owner address and email
  - Premise address for the installation
  - Boiler Make/Model, Max Heat Input and Gross Output (Btu/hr); Fuel type
  - Application number (CA/CB/CR/CW # ) for the replacement boiler
- Temporary Work Permit will be issued for 30 days.
- Fees will be applied to the new Work Permit application

#### Mail the following to DEP after online submission (Address above):

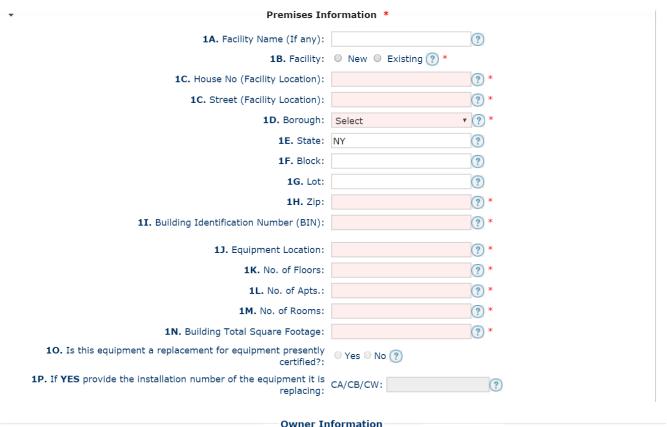

- APC5-0 printed from online CATS
- Two copies of all drawings on 11 x 17 (original and copy)
- Signed Certification provide either:
  - APC 5-0 Certification form signed by Owner, PE and Installer; or
  - APC 5-0 Certification form signed by PE, Letter of Authorization signed by owner and Installer Statement signed by installer

#### **Instructions for Completing Form APC 5-0**

Cell #	Form Field Name	Help Text
1A	Facility Name (If any)	If subject premise has a name which is displayed on the store front sign or is commonly known (e.g. "ABCD" Garden Apartments) indicate such name. If no such name exists, indicate "none".
1B	Facility	Select "NEW" if equipment will be housed in a new structure. Select "EXISTING" if equipment will be housed in an existing structure.
1C	Facility Location	Complete premise address of combustion equipment being filed for.
1C	House No.	Do not insert any floor no./suite no.
1C	Street Address	Do not abbreviate street address.
1D	Floor / Suite No. (If any)	Enter floor number or suite number or room number if available.
1E	Borough	Select from the dropdown menu.
1F	State	Enter the State (NY).
1G	Block	
1H	Lot	
11	Zip Code	
1J	Building Identification Number (BIN)	If premise identified is part of a housing or commercial complex where buildings have identifying numbers and/or letters, provide same.
1K	Equipment Location	Identify physical location, by floor number, of combustion equipment within premise (e.g cellar).
1L	Is this equipment a replacement for equipment recently certified?	Select "YES" if equipment is a replacement for equipment that is currently certified. Select "NO" if the equipment is not a replacement.
1M	If YES, provide the installation number of the equipment it is replacing (PA/PB):	If this equipment is a replacement for equipment currently certified, please provide the Installation Number of the equipment it is replacing. (Renewal of the existing Certificate of Operation (CO) is required as long as the equipment is operable. The existing CO will be cancelled once we receive a written notification within 20 days that the equipment is dismantled or rendered inoperable.)
1N	Is this a legalized source?	Indicate whether or not this is a legalized source.
2A	Owner's Name	Full legal name of owner of premise.
2B	Owner's Address	Owner's complete mailing address.
2B	House No.	Do not insert any floor no./suite no.
2B	Street Address	Do not abbreviate street address.
2C	Floor / Suite No. (If any)	Enter floor number or suite number or room number if available.
2D	Borough / City	Enter the borough or city if outside NY.
2E	State	Enter the State (NY).
2F	Zip Code	

2G	Telephone Records Com	trol (718) 595–3855 Enter the primary number of the Owner.
2H	Fax	Fax number of the Owner.
21	Owner's Email Address	Email address to facilitate future correspondences and send
		out renewal reminders.
2J	Facility Classification	Classification based on type of use. Check only one
		appropriate box.  Example: Hospital owned residence, check residential College
		owned dormitory, check residential College owned power
		plant, check utility
3A	Name of P.E or R.A	Full name of Professional Engineer authorized to file the
		Industrial Process Equipment Application Form.
3B	NYS License Number	New York State Professional Engineer's or R.A's License
20	D.F. F. maril Address	Number
3C	P.E. E mail Address	P.E. email address for future correspondence.
3D	Telephone	Telephone number of the Professional Engineer.
3E	Fax Company Name	Fax number of the Professional Engineer.
3F	Company Name	Name of the company the Professional Engineer is employed with.
3G	P.E. Address	Complete business address information of the Professional
		Engineer.
3G	House No.	Do not insert any floor no./suite no.
3G	Street Address	Do not abbreviate street address.
3H	City or Borough	Enter the borough or city if outside NY.
31	State	Enter the State (NY).
3J	Zip Code	
3K	Name of Installer	If applicable, provide the full name of the installer
		authorized to file the Industrial Process Equipment Application Form.
3L	NYC Installer License Number	New York City Oil Burner Installer License Number.
3M	Installer E mail Address	Installer email address for future correspondence.
3N	Telephone	Telephone number of the installer.
30	Fax	Fax number of the installer.
3P	Company Name	Name of the company the installer is employed with.
3Q	Installer Address	Complete the business address information of the installer.
3Q	House No.	Do not insert any floor no./suite no.
3Q	Street Address	Do not abbreviate street address.
3R	City or Borough	Enter the borough or city if outside NY.
3S	State	Enter the State (NY).
3T	Zip Code	
4A	Is it a government owned property?	If the premise where the equipment is located has tax
		exemption as per the Department of
		Finance, then select "YES". Additionally, provide the DOF tax
4B	Agency Name	exemption documentation.  Select the appropriate agency name.
4C	Fee Waiver	The fee is waived, select 'Yes'
40	I CC VV aIVCI	THE ICE IS Walveu, Scient I'es

4D	Fee Waiver Reason	(718) 595–3855 Select or mention detailed fee waiver reason.
		Select "New" if it's a new chimney and "Existing" if it's an
5B	Chimney (New or Existing)	existing chimney.
5C	Type of Chimney	
5D	Height	The distance from the centerline of the entrance of the combustion gases into the chimney to the top of the chimney.
5E	Chimney inside Dimension at outlet (in)	Specify inside dimension of chimney outlet in inches.
5F	Radial distance above (ft)	The minimum radial distance from the centerline of the existing chimney to an acceptable receptor location, located at a height equal to or greater than the chimney outlet in feet.
5G	Radial distance below (ft)	The minimum radial distance from the centerline of the existing chimney to an acceptable receptor location, located at a height below than the chimney outlet in feet.
5H	Rain Cap/Cover (Yes or No)	
51	Exit Velocity (f/s)	Chimney gas exit velocity in feet per second.
5J	Exit flow rates (SCFM)	Chimney gas exit flow rate in standard cubic feet per minute (SCFM). The standard condition is 60° F and 14.6 psi.
6A	Induced Draft Fan (Yes or No) & (New or Existing)	Indicate "Yes" or "No" & "New" or "Existing"
6B	Make	Specify Induced Fan's Manufacturer make.
6C	Model Number	Specify Induced Fan's Manufacturer.
6D	Capacity	Specify Induced Fan's Manufacturer Capacity.
7A	Continuous opacity monitor	
7A	Monitor Make	Specify the name of the manufacturer make of the continuous opacity monitor.
7A	Model No.	Specify the name of the manufacturer model number of the continuous opacity monitor.
7B	Nox	
7B	Monitor Make	Specify the name of the manufacturer make of the continuous NOx monitor.
7B	Model No.	Specify the name of the manufacturer model number of the continuous NOx monitor.
7C	Sox	
7C	Monitor Make	Specify the name of the manufacturer make of the continuous SOx monitor.
7C	Model No.	Specify the name of the manufacturer model number of the continuous SOx monitor.
8A	Is this boiler on the DEP Accepted Equipment List?	Select "Yes" if the boiler is accepted. Select "No" if the boiler is not accepted. Please check to see if this boiler is on the Department Accepted Equipment List and complete an equipment certification form if "No" is selected.  Specify the name of the manufacturer of the boiler.
он	Boiler Make	Specify complete model of the manufacturer's model
8B	Boiler Model	number.

# THE CITY OF NEW YORK DEPARTMENT OF ENVIRONMENTAL PROTECTION

1	Records Control (	`I '
10C	Fuel Type 1 Days/Year	Average number of days per year burner is or will be in operation.
	Tuer type I Days/ real	Maximum quantity of fuel burned per hour in gallons for oil
10D	Fuel Type 1 Quantity/Hour (gph/cfh)	or cubic feet for gas during normal heating season.
10E		Total quantity of fuel burned per year in gallons for oil or
100	Fuel Type 1 Quantity/Year	cubic feet for gas.
		Select GPH if fuel is oil used and CFH if its natural gas only.
405		For dual fuel installations, use the maximum fuel delivery
10F	Maximum Fuel type 1 Delivery Rate (GPH or	rate of the fuel oil. The maximum fuel delivery rate to the burner nozzle shall be 80 to 110% of the boiler's gross output
	CFH)	firing rate. Specify units used.
		Select the type of fuel burned or to be burned:
11A		No. 2 Fuel Oil
	Fuel Type 2	Natural Gas Other
11B		Average number of hours per day burner is or will be
	Fuel Type 2 Hours/Day	operating for fuel type 2.
11C	Fuel Tune 2 Days Weer	Average number of days per year burner is or will be in
	Fuel Type 2 Days/Year	operation.  Maximum quantity of fuel burned per hour in gallons for oil
11D	Fuel Type 2 Quantity/Hour (gph/cfh)	or cubic feet for gas during normal heating season.
445	(GF-7-C-)	Total quantity of fuel burned per year in gallons for oil or
11E	Fuel Type 2 Quantity/Year	cubic feet for gas.
		Select GPH if fuel is oil used and CFH if its natural gas only.
		For dual fuel installations, use the maximum fuel delivery
11F	Maximum Fuel tune 2 Delivery Pete (CDI) or	rate of the fuel oil. The maximum fuel delivery rate to the
	Maximum Fuel type 2 Delivery Rate (GPH or CFH)	burner nozzle shall be 80 to 110% of the boiler's gross output firing rate. Specify units used.
12	Burner Limitation Details	Specify burner limitation details.
	Burner Emitation Details	Select "Yes" if the assembly is accepted. Select "No" if the
		assembly is not accepted. Please check to see if this assembly
	Is this boiler/burner assembly on the DEP	is on the Department Accepted Equipment List and complete
	Accepted Equipment List?	an equipment certification form if "No" is selected.
		Select the type of combustion control type to be used:
13A		Combustion On-Off     Low-High-Off with Low Fire Start
		3. Low-High-Low-Off with Proven Low Fire Start
	Combustion Control Type	4. Full Modulation with Proven Low Fire Start
13B	High Low Modulation Motor	
13C	Modulating Motor Make	Submit manufacturer's name and complete model number.
13D	Modulating Motor Model No.	(Provide information for type 2, 3, &4)
13E	Firing Rate Control (Yes or No)	
13E	Firing Rate Control Make	Submit manufacturer's name and complete model number.
13F	Firing Rate Control Cat No.	(Provide information for type 3 & 4)
14A	No. of Primary Oil Heaters	
14B	MFR	
14C	CAT No.	
14D	Type of Media (Steam, Hot H2o, Electric)	
14E	Circulation	
		1

140	All Oil Pipe Lines Adequately Insulated	
15A	Intake Ventilation Fan(s) (Yes or No)	Indicate "Yes" or "No". If yes, please specify the manufacturer's name and model with capacity of the fan.
15B	Make	
15C	Model	
15D	Capacity	
15E		Indicate "Yes" or "No" If yes, please specify the Manufacturer's name and model
455	Exhaust Fan in Boiler Room (Yes or No)	with capacity of the fan.
15F	Make	
15G	Model	
15H	Capacity	
151	Opening (Yes or No)	Indicate whether an open louver will be utilized to provide combustion air.
15J	Is It (Fixed or Motorized)	Indicate whether it is open or motorized louver. Motorized louvers are required for boilers with a gross output firing rate of 7.0 million BTU/hr or greater.
15K	Gross Area (sq. in)	Specify the gross area in square inches.
15L	Efficiency%	Indicate the percent efficiency. When the actual louver efficiency is unknown, the efficiency shall be taken as 60 percent for a fixed louver and 100 percent for a motorized louver.
15 M	Net Area (sq. in)	Specify the net area in square inches. The net free area shall be 86 square inches for every one million BTU/hr based on the maximum heat input rating.
15N	Ventilation Duct (Yes or No) and (New or Existing)	If ventilation duct (s) is (are) used, indicate "yes" and state if ducts (s) is (are) "new" (to be installed with this application) or "Existing" (already installed on a previous application).
16A	Barometric Damper	If barometric damper is to be used, select "Yes". If another form of draft control is used, select "No".
16B	Nominal Size (in)	If barometric damper installed then specify its diameter in Inches (must be as large as the breeching diameter).
16C	Nominal Area (sq. in)	If barometric damper installed then specify its area in square inches.
16D	Power Operated Draft Regulator with Low Draft Cutoff (Yes or No)	If power operated draft regulator (PODR) is used, enter "Yes" and the original manufacturer and complete catalog number of basic unit and low draft switch. If the low draft
